

NEW NORDIC INTRODUCING:

MILIACINOL®

MILLET AND RICE SYNERGY FOR HAIR AND SKINCARE

The power of Miliacin, Gamma-Oryzanol, ceramides and tocotrienols synergy.

EXTRACT DESCRIPTION:

- Millet (*Panicum miliaceum*) French Organic supercritical CO2 oil extract combined with Organic Rice (*Oryza sativa*) Bran supercritical CO2 oil extract.
- Miliacin content >1%, well known for promoting hair growth, with multiplied bioavailability through its combination with rice ceramides.
- Gamma oryzanol content > 0.4% plus a high concentration of linoleic acid (essential fatty acid), both inducing the formation of hair follicles and promoting hair growth.
- 100% French traceability (Sustainable organic sourcing and production of Rice and Millet)
- A green and safe extraction process: Our Millet and Rice Bran Total Extracts are separately obtained by pressurized supercritical fluid extraction using carbon dioxide as the solvent, and then combined into a 5:1 V:V ratio. No solvent traces remain.
- 2 years naturally stable shelf life, enhanced with 0,4% TOCOBIOL antioxydant and 0,1% Rosemary extract natural preservative.
- Available for dietary supplements and cosmetic formulations.

MILIACINOL® is specially dedicated to support hair growth and strength and to improve the skin suppleness. It also present Anti-inflammatory properties and can Support a healthy blood cholesterol level with a daily intake.
